

Dear Dr. Patel,

Your generosity has a profound impact on our faculty's mission and paves the way for students to embrace transformative learning opportunities, tackle challenges with confidence and pursue their goals with purpose. Because of your support, they know the U of T Engineering community stands beside them – encouraging their growth, celebrating their achievements and inspiring their future success.

Watch the video below to learn how you're making a difference.

We deeply appreciate your membership in the Skule™ Society, our most generous annual supporters of the faculty. With your leadership and commitment, U of T Engineering is able to maintain its global reputation for excellence.

We are grateful for your partnership and look forward to staying connected with you. If you have any questions about the faculty or your giving, please reach out to:

Adria Miller
Senior Director, Development
